TRAVERS IS REMOVED TO THE PENITENTIARY

**Toronto Police Contend That Attempt is Being Made to
Prevent Further Investigation into Farmer's Bank
Case—Prisoner Had Been Threatened**

Toronto, Feb. 18.—W. R. Travers, one of the wreckers of the Farmers bank, has been taken to the penitentiary just when his evidence began to be "hot." Early this morning Arthur Travers, brother of the farmer's wreckers, and John Brown, a constable, appeared at the jail with the necessary papers. Governor Chambers had nothing else to do but hand the prisoner over to them. In reality Travers has been held at the jail as a necessary witness in the various cases against those connected with the Farmers bank. Technically, however, he was merely at the jail awaiting removal at the convenience of the department of justice for the serving of his six-year sentence at Kingston penitentiary. The local police and crown attorney are furious at this sudden removal. They protest that Travers is in short order on a subpoena. Travers testified yesterday afternoon and was taken to reappear in court this morning in the resumption of the case against J. R. Stratton and others. Travers was taken away on the 910 train for Kingston. "Never in the history of the police court has there been a case like this," said Inspector Walter Duncan this morning. "I had been down at the depot when I had arrested the whole lot of them, deputy sheriffs, constables, and Travers. It was in my custody and I would have had a perfect right to do it. From the first, some one has been trying to buck this enquiry. Instead of helping the police to get at the bottom of all the crookedness, every obstacle has been thrown in our way. We have been successful in some measures and the fact that too many prominent people have been implicated is at the bottom of this attempt to thwart the ends of justice. Travers has been threatened by the law. He has been carried to the jail that if he did not stop testifying against the other people, he would be taken to the penitentiary. He has been threatened to get 20 years under this sentence."

TENANTS CANNOT REGISTER UNTIL AFTER SEPTEMBER 1

**IS WAY CHARTER IS INTERPRETED BY ASSESSOR Mc-
MILLAN—DELEGATION FROM TRADES AND LABOR
COUNCIL INTERVIEWS MAYOR**

Interpretation of the clause in the amendments to the Edmonton charter which confer the "tenants' franchise" will be made by the city solicitor, to whom the whole question was referred by Mayor Armstrong this morning. This course has been taken by the mayor in response to the request of the Edmonton trades and labor council. Secretary T. H. Clark, an ex-delegation from the city registration committee of the council, waited on his worship this morning, urging that the matter be cleared up, as a large number of citizens are desirous of registering in accordance with the terms of the voter franchise provisions. According to the amendment to the franchise laws, the names may be entered on the assessment roll of "all persons residents of the city, who have resided there for one month next prior to the first day of September, and who are, or whose wives are, tenants in the city."

"In my opinion," said Mr. McMILLAN, "this clause signifies plainly that no person may secure enrollment until after September 1, for until then he is unable to prove that he has been a resident of Edmonton for the month next prior to that date. I will be satisfied to enroll any tenants on the voters list as soon as I am satisfied as to the legality of such procedure."

By an oversight the clause in the charter which provides for a "householder's franchise," obtainable by all persons whose names appear on the householders voters list, on payment of \$3, was not deleted. The assessor is declining to consider their applications. The assessor at first declined to consider their applications, later explaining that the applicants must present affidavits by themselves, and by the landlord whose tenants they were, as to the bona fides, before any consideration could be given to their request.

When interviewed by the Capital Post, Assessor McMILLAN stated that his interpretation of the charter was that no tenant might secure enrollment until after September 1.

NEWS FORECAST FOR COMING WEEK

Lord Minto to be Granted Freedom of City of London on Thursday.—U. S. Supreme Court Will Convene.

Washington, D.C., Feb. 18.—President's reciprocity campaign is expected to be conducted with renewed vigor. The feature of the week will be the address by Secretary of Agriculture Wilson in Buffalo, in which he will attempt to show that the farmers of the United States will not be hurt by the proposed reciprocity agreement with Canada.

The Supreme Court of the United States will convene Monday, following a recess of four weeks. Decisions in the Standard Oil, American Tobacco and Corporation Tax cases are looked for at an early date.

Julius Gurnea, of the United States District Court at Chicago is expected to render his decision in the case of the meat packers to have the indictments against them quashed or abated.

Count von Bernstorff, the German ambassador, will deliver the oration on Washington's birthday at the annual convention exercises of the University of Pennsylvania.

Rev. John Ward will be consecrated Wednesday as Bishop of the Diocese of Leavenworth, Kas. Two days later, at Seranton, Pa., Dr. Rogers Israel will be consecrated as first bishop of the recently erected Protestant Episcopal diocese of Erie.

The freedom of the city of London will be presented to Lord Minto, former Governor-General of Canada, at the Guildhall, Thursday, and the Mayor will afterwards receive him at luncheon at the Mansion House.

The fifth international congress for studying the question of the amelioration of the condition of the blind will meet at Cairo, Egypt, Monday. At San Sebastian, Spain, an international congress of chess masters will begin.

SETTLERS EFFECTS BEGIN TO ARRIVE

C. N. R. Handling Carload After Carload of Settlers for This Part of the Province

After a trip of inspection which covered the main line and branch lines, J. R. Cameron, general superintendent of the Canadian Northern railway, was in the city for a few hours last evening, leaving again for the east at nine, in his car. He was accompanied to the city by Superintendent W. A. Brown of the Edmonton division, who has just returned from an inspection trip over the line.

General Superintendent Cameron made the trip west from Winnipeg for the purpose of inspecting the lines preparatory to the opening up of the summer season.

"There is a particularly heavy traffic on the main line at present," said Superintendent Brown, to the Capital Post. "It is evident that there will be a big influx of settlers to this part of the province this spring, as we are handling carloads after carload of settlers' effects."

"We are operating 'freight trains' over the new Verulam branch, but at present there is very little freight traffic on that line."

OPERATORS WANT INCREASED WAGES

Schedule Presented to Company Demands that Minimum Salary be Fixed at Thirty Dollars Monthly

Toronto, Feb. 18.—For the third time in seven years the Great North-western Telegraph company threatened with a strike of its operators. A new schedule of wages, which would mean a minimum salary of \$30 per month was presented to the management on February 2 by a committee of the employees from the great majority of the employees and the committee asked for a conference. The committee applied by first discharging the committee and then discharging eight of those who refused to sign the schedule. The committee was satisfied with present conditions and that the committee was not authorized to act. Approximately 25 employees have been dismissed and it is reported that others will follow as rapidly as men can be obtained from the United States to fill the places.

The minimum salary of operators on the G.N.W. is \$25 per month with a maximum of \$70, they want the same scale as C.P.T. which is 15 to 20 per cent higher.

DECISIONS EXPECTED

Washington, D.C., Feb. 18.—After a recess of four weeks the supreme court of the United States will meet again Monday. Marked public interest is displayed in the reassembling of the court, for it is generally understood that the highest court is about ready to hand down its decisions in the Standard Oil, American Tobacco, Corporation Tax and several other cases in which the government is the plaintiff.

WEDDED AT OTTAWA

Ottawa, Ont., Feb. 18.—A large and fashionable assembly held Christ Church Cathedral this morning for the wedding of Miss Edith Wade, daughter of Mr. and Mrs. A. Hester Wade, to Mr. C. Devin, son of Mr. and Mrs. R. J. Devin.

BOARDMAN-MUNN WEDDING

Washington, D.C., Feb. 18.—At one of the most fashionable receptions of the winter Miss Marie Louise Munn, who was at one time recently engaged to Theodore Roosevelt Jr., this afternoon became the bride of E. Boardman Munn, a member of one of the leading families of Boston. The wedding ceremony was performed at St. John's Episcopal church by the rector, the Rev. Holland Gould Smith, D.D. Following the ceremony at the church there was a large reception at the home of the bride's mother, Mrs. Charles A. Munn, in Scott Circle.

BISHOP GALLAGHER IS 65 YEARS OLD

Galveston, Texas, Feb. 18.—Rev. Nicholas A. Gallagher, bishop of the Roman Catholic diocese of Galveston, will celebrate his sixty-fifth birthday anniversary tomorrow. He was born in Ireland and spent the whole of his early career in the church in his native country. He came to America in 1882 and succeeded to the bishopric ten years later.

MASONS CELEBRATE

Washington, D.C., Feb. 18.—It will be an unusual sight to see a large number of Masons of the District of Columbia receiving their charter. The anniversary of the founding of such an important body that the fraternity will observe it with a three-day celebration, which was ushered in today with the reception of numerous high officials of the order invited from all parts of the country to participate in the observance. The chief features of the celebration will be the formal exercises in the evening at the Masonic temple, followed by a grand banquet Monday night at the New Willard Hotel.

DOES STANDARD TRUST CO. REFUSE TO ACCEPT BONDS?

**Report Is That Trust Co. Will Not Take
Waterways Bonds Signed Some Weeks
Ago, But Demands New Government
Bonds—Would Require Special
Session of Legislature**

Several weeks ago, Premier Sifton, of Alberta, sat in his office stripped of his coat and waistcoat, until the wee small hours of the morning, signing bonds of \$1000 each to the extent of \$7,400,000, the amount of the Great Waterways bonds. These bonds were to substitute the one big bond which the province gave to the Morgans when the money was first turned over to the province in trust for the railway company.

If it is said the Standard Trust company, the trustee of the mortgage agreement between the Morgans, the province and the railway company, refuses to sign the bonds which Premier Sifton so laboriously signed a few weeks ago, the highest work of the province is at stake. It will be accepted at a meeting of the legislature held to give the government power to issue bonds, for the highest work of the province is at stake. It will be accepted at a meeting of the legislature held to give the government power to issue bonds, for the highest work of the province is at stake. It will be accepted at a meeting of the legislature held to give the government power to issue bonds, for the highest work of the province is at stake.

NEW WHOLESALE FIRM FOR CITY

**Donnelly, Watson, Brown, Wholesale
Grocers, Establish Branch in Ed-
monton—Others are Coming.**

Edmonton secured another new wholesale house this week. The firm of Donnelly, Watson, Brown, who are working on the new trail, are moving in from the north and west. The firm of Donnelly, Watson, Brown, who are working on the new trail, are moving in from the north and west.

GOULD'S FIANCEE IS NOT OF ROYAL BLOOD

Was Born in New York and Was Educated in France.

New York, Feb. 18.—With the expected confirmation today of the engagement of young Jay Gould and Miss Annie Douglas Graham, public interest in the bride-elect has been greatly increased. Though Miss Graham enjoys an exceptionally high position in society, she is not a member of the aristocracy. Her father, Mr. Arthur Graham, is a little known to the public at large, probably because she has never come into the limelight in other pastimes that would bring her into the limelight.

STARTS LIEBEL SUIT

**W. T. R. Preston Alleges That He Was
Misquoted by Ottawa Journal—
Demands Damages.**

London, (C.A.P.) Feb. 17.—The representative of the Canadian Association of Authors, Mr. W. T. R. Preston, has instructed his solicitor to issue a writ against the Ottawa Journal for libel contained in its editorial columns following the production in the House of Commons of a letter from Mr. Preston to the Secretary of the Land Commission, which was connected with the suggested investment of Dutch capital in Western Canadian farm securities.

STORMS IN GERMANY.

Cuxhaven, Germany, Feb. 17.—A hurricane has raged on the German coast since last night. A number of vessels were damaged and have taken refuge here. Several crafts grounded in the Baltic sea.

FORTHCOMING EVENTS

AT ENTWISLIE. There will be a gala day of sports at Entwistle on March 2nd, and it is expected that many Edmontonians will be present. The event will be followed by a ski competition for which prizes will be offered. The competitions are open to all and will be held on the snow-covered slopes of the Entwistle hills.

KAISER TO VISIT ENGLAND.

London, Feb. 18.—The recent announcement that Emperor William would attend the ceremony of the unveiling of the national memorial to Queen Victoria on May 19, was confirmed officially today. He will be accompanied by Empress Augusta and it is expected they will be guests of King George and Queen Mary several days following the unveiling.

UNIONIST WINS.

London (G.A.P.), Feb. 18.—The result of Horncastle Division of Lincolnshire bye-election yesterday was, Welsh Unionist 4955, Liberal, 4848. The Unionist majority was 8709, January 1910, and 524 in December, 1910.

Aid Organized Labor.

Washington, Feb. 18.—Samuel Gompers, president of the American Federation of Labor, has sent to all labor a circular asking aid in raising a fund of half a million dollars to be used in fighting the opponents of organized labor at Los Angeles. "We are issuing this appeal," said Mr. Gompers, "for the purpose of aiding our fellow workers in Los Angeles to maintain their rights and liberties as men of organized labor."

EDMONTON'S FUELLERS.

At the meeting of the Men's mess this evening the following officers will be elected: president, vice-president and secretary. The following committees will also be struck. Mess committee of five members, entertainment committee of three members and an athletic committee of three members. The regiment is entering on its third annual drill season and has a good working nucleus but it is imperative that every member of the regiment put his shoulder to the wheel and help it along. In order to keep things going we have the different messes, officers, sergeant's and Men's messes of which the Men's mess is the largest and most important. It is the intention of those in charge to make this mess a club room and to have it fitted as such. It will be free to the use of all members of the Regiment under the rank of sergeant.

The medicine tonight is called for eight o'clock sharp and dress will be drill order. After the business is over refreshments will be served.

Any recruits wishing to join will be sworn in before the meeting.
Engagement and Wedding Rings a specialty, W. A. Ferguson.
Issue of marriage licenses, W. A. Ferguson.

BY CABLE TO THE ARCTIC

A new story of man's struggle with the wild forces of the frozen north comes out in the account of the construction for the Alaskan government telegraph line by the United States signal corps, as told by Mr. George F. Walsh, in "The Scientific American" supplement.

"Almost insurmountable difficulties" were conquered on land and sea, and for years the men battled with the climate and other perils "until their resources and nerves were taxed to the utmost." So while the completion of this line is a triumph in many ways, it shows particularly "what a small body of plucky individuals can do in a short time."

It must be remembered, Mr. Walsh reminds us that prior to the Spanish-American War the United States had no cable whatever, and the signal corps men had no experience with cable-ships or grappling machines. The world's cables were handled by English, German or French ships and workmen. When the war broke out with Spain the navy and army immediately felt the need of cable-cutting and cable-laying ships. The need was met in a strange way.

"The converted cruiser Yale one day captured the Spanish merchant ship Rita off the coast of Cuba. This minor incident of the war may have left no impression upon the minds of readers of the papers; but the Rita was destined to become a most important factor in the future triumphs of peace."

"She was remodelled as a cable ship and re-christened the Burnside. It is this ship which has achieved such lasting glory for the signal corps service. After serving as a cable ship off the coast of Cuba until the war ended, she sailed for the Philippine Islands. It was imperative that cables should be laid along the different islands of our new possessions in the far east, and the Burnside proceeded to reel out hundreds of miles of cable."

"Over 2,000 miles of submarine cable were laid around Manila and the adjacent towns of the coast. The Burnside was then brought home and finally commissioned to lay the Alaska cable. Altogether she has laid 1,500 miles of cable. It is estimated that at the end of 1904 the United States government will have in operation over 3,500 miles of submarine cables, nearly one-half of which was laid by the Spanish merchant ship Rita, or, as she is now called, Burnside. The making of our government the second in the number of miles of submarine wire laid and owned, exceeding the possessions of Great Britain and Ireland by over 800 miles, and about 1,500 miles less than the number owned by France, and this has all been accomplished within the few years lapse-

and the Burnside has the glory of doing most of the work. Surely the triumphs of peace sometimes select strange agencies for the accomplishment of ends."

"The new all-American Alaskan cable was laid by the Burnside up the coast from Seattle to Skagway near the head of the Lynn canal. Branches were run to Sitka, the nominal capital of Alaska, and to Juneau,aines Mission, and two other places along the coast."

"The Alaskan coast in winter is wild and rough, with the sea filled with great cakes of ice, and even in summer dangerous ice-bergs float down from the north. The Burnside encountered great difficulties in reeling out the cable. And when her work was finished the cable was found to work perfectly, and Washington began to talk with the cities of Nome, Juneau, Sitka and Dawson."

"Meanwhile, strenuous work on land was being performed by the signal corps men, who were commissioned to string wires across country to connect with the cable at different points. The difficulties of this work were in many respects greater than those encountered in the sea. Here was a wild, uninhabited country. It was thousands of miles in extent, swept by blizzards in winter, soft and marshy in summer, across which wires had to be stretched strong enough to resist the storms of winter and withstand the floods and workmen had to carry their supplies of provisions with them, working weeks and months hundreds of miles away from any base of supplies. From Eagle to Valdez they followed the old government trail 400 miles in length; but down the Tanana they broke entirely new, unexplored regions, and had to string the wires over snow a dozen feet deep, and then return in summer to erect the poles. From Yukon to St. Michael they passed on through 800 miles of the most inhospitable country, struggling against blizzards and storms that threatened to destroy them. Up from St. Michael and through the Tanana, they worked in the heat of a summer that seemed greater than any they ever visited the tropics and then, to make matters worse, a forest fire broke out in their rear and swept hundreds of miles of newly erected poles away."

"When they reached Norton Sound, within sight of Nome, a cable across the sound was suggested. But for six months in the year the water would be frozen solid, and when the cold winter came the cable would be snapped like straw. The only possible solution was by wireless telegraphy."

"So far up here under the Arctic Circle, a wireless telegraph station was established. Long timbers were transported up the coast and across the country for masts to support the wires

STEELE'S SEEDS

BRIGGS

USE ONLY THE VERY BEST

TESTED FOR GERMINATION
TESTED FOR PURITY

SOLD BY LEADING MERCHANTS EVERYWHERE

at the stations. Great quantities of electrical apparatus were carried to the station, and then the experiment proved a failure. The impulses across the sound were so slight that it seemed as if wireless telegraphy in that great, cold, northern country had lost its power. Other apparatus was shipped, and in time the long line to Nome was completed by the successful working of this last stretch.

"With the all-American Alaskan line completed, the question of maintaining it now comes up for solution. In winter season the awful blizzards and snowstorms destroy the telegraph pole and snap the so that interruptions are common. Relay stations have to be established at frequent intervals, and repair crews are ready to hunt up troubles with the wire at any moment. These repair crews are provided with dog-trains or reindeer sleds, and on these they cross miles of frozen country in the worst sort of Arctic winter."

"In the spring and summer the snow melts rapidly on the sides of the mountains, and the swollen rivers and streams inundate the country, washing away poles and tangle fallen wires. The repair crews must then in their summer outfits struggle against water, marsh, mosquitoes and millions of other annoying insects. Often the ground in the valleys is so soft that the crew can not cross to reach the poles."

"Then, again, upon the bleak mountain side, and in the passes, the wind attains a velocity frequently of sixty miles an hour, and trees and telegraph poles are swept down like chaff. How to protect the line from such storms is another problem."

Fry's - THE Cocoa

Serve it often! Serve it every day—every meal—between meals—at afternoon tea—to the evening's guests—or at bed-time to all the family. You'll never tire of Fry's Cocoa as you do of coffee and tea, and it is lots better for everyone—especially for the children.

A Food and Drink for All the Family

Most delicious and satisfying of all beverages Fry's Cocoa is also full of readily-digested nutriment. It is thus pleasing and beneficial to those of robust health as well as to the tired, or nervous, or those of weak digestion.

For Children—Instead of Milk

Milk is very good, of course, but Fry's Cocoa is just so much better, more nourishing, easier digested, safer. Tastes so good the kiddies clamour for more, the more Fry's Cocoa you give them the healthier, happier, chubbier, stronger they become.

For Grown-Ups—Instead of Tea or Coffee

Tea and coffee are merely flavoured hot water. Too often they produce nervous excitability. At best they provide what is called a "false stimulant," and are in no sense foods. Fry's Cocoa has all the food-requisites, readily-digestible. It relieves fatigue, stimulates the faculties and steadies the nerves in a wholesome, beneficial way—by nourishing the body, building up tissues and providing energy. Decide now—start to-day—to drink it oftener. See how much better you enjoy your meals when Fry's—the purest, richest and most economical of all cocoa—is served. Notice how much better you feel after drinking it.

Order Fry's Cocoa To-day

Nothing Will Do But FRY'S

Trade Supplied by J. S. Fry & Sons, Ltd., 123 Bannatyne Ave. East, Winnipeg, Man.

Next Sweet You Eat Try Fry's Chocolate Assortment

The kind that make you smack your lips with sincere appreciation and thank your lucky stars that such delicious goodies cost so little that you can have them often. You'll think them quite a bit nicer than the nicest chocolates you ever tasted. Some store near you has them—fresh-made, attractively packed, pure goodness all through.

CIVIC EMPLOYEES HOLD THIRD ANNUAL REUNION

"At Home" in Separate School Hall Last Evening One of the Chief Functions of the Social Season—Over Two Hundred Present

In the neighborhood of two hundred employees of the city of Edmonton and their friends participated in the third annual reunion in the separate school hall last evening. For the first time the reunion took the form of a social and dance, and its success was ample justification of the departure inaugurated by the committee in whose hands the arrangements for the gathering had been placed. A first rate concert programme had been devised, interspersed with speeches by the chairman, A. J. Latour, his Worship, Mayor Armstrong, and by the Rev. Dr. McQueen.

At 10.30, at the conclusion of the concert, the gathering broke up into social groups, refreshments being served by the committee and other members of the municipal staff, who were ubiquitous and uniting in their attendance upon the guests.

From eleven until the wee small hours, the dancing was continued, to the accompaniment of Turner's orchestra. Mayor Armstrong himself was an enthusiastic and indefatigable dancer, and remained to the end. Commissioner Hutehach and a number of the aldermen were also present during the greater part of the evening. Special cars were provided by the street railway department for the convenience of guests who left in the early morning.

Among features of the concert were vocal solos by C. L. Richardson, F. L. Walker, P. K. McGregor, and C. G. Wates, violin solos by F. McMahon and R. Doorman, and a recital by J. Norcott. A. J. Latour, chairman of the committee by whom the evening's programme was arranged, acted as master of ceremonies, and delivered a brief opening address, dwelling upon the social aspect of the gathering and upon its wider significance.

The signal increase in the number of employees in the municipal service during the last four years, was referred to by Mr. Latour in the course of his remarks. From a total of 82 persons on the payroll of the city in September, 1906, the number of municipal servants has increased until on January 1, of the present year, there were in all 363 persons on the permanent staff, while in the summer of last year, when outside work involved a very large increase in the staff, but for work carried out by the city itself and contracts for city work, there were in the neighbourhood of 1900 persons on the civic payroll. Edmonton, Mr. Latour pointed out, is one of the largest employers of labour in western Canada. In four years its municipal undertakings have increased at a rapid rate. The street railway department, which hadn't come into existence in 1906, now headed the list with 91 employees, the water works department coming next with thirty-five. This department was not properly organized in 1906.

"From the highest to the lowest," said Mayor Armstrong, in the course

of his address, "we have I believe in Edmonton a faithful body of municipal servants as are to be found in the employ of any corporation. Making the round of the offices of the city I find the city's affairs well looked after. This is as it should be. With employees devoted to the interests of the city with the same devotion as those interests were their own, with that incentive to effort, you are sure of success in the end and the very best result."

As one of the pioneers of municipal effort in Edmonton, and especially of the municipal ownership movement, Dr. McQueen, in reminiscent vein, carried his auditors back to the early days. Twenty-four years ago, Dr. McQueen crossed the Saskatchewan and became a resident of the then town of Edmonton.

Dr. McQueen spoke of the first fire that was fought in Edmonton, under the direction of Chief Laurier, the veteran of the fire brigade. It occurred at the mounted police barracks, and every man in the town was called upon to help in its extinction. Fire fighting in those early days was not without its humorous incidents; humorous, at least, when viewed in the light of subsequent events. One of these was described in the course of the address. Referring to the new fire chief, Dr. McQueen declared that the same zeal which manifested itself in the fighting of fires in village days, would ensure success to Mr. Laurier in his new position.

Fighting the franchise hunters, said Dr. McQueen, was a task of the early days in Edmonton. Private companies sought to obtain control of the water franchise. It was with some hesitation at first that Edmonton embarked upon a policy of municipal ownership. In those days the speaker had read much about the city of Calgary and its successful experiments. When he had never been in office, he had, in other ways, endeavored to impress the authorities with the advantages of the system of public ownership, and it was in some measure due to his conversations with the then Mayor of the city, that Edmonton was launched upon the course which has since taken more determined shape.

"Municipal ownership is a fine thing," said Dr. McQueen, "so long as you have the right men to carry on your affairs. In general the men who have been in the city's employ have given good service, and though we may have without heads in some departments, while we may have swelled heads in others, I believe that all will be well."

"You cannot have success," he said, continuing, "unless you have good men in each department, and under them a loyal staff."

In conclusion, Dr. McQueen spoke in commendation of the public spirit of the city, and of the loyalty of the men who, without monetary reward, he congratulated the employees of the city on having decided to hold a reunion each year, at which all who were in civic service might be brought together in a social way.

NEW COAL COMPANY IS BEING ORGANIZED

Will be Capitalized at \$100,000 and Will Develop Fields Near Lake Wabamun.

Within a week a company capitalized at \$100,000 will be organized to operate a coal mine in the vicinity of Lake Wabamun. The promoters of the enterprise have already secured what they believe to be the best property in that district, it being close to the Grand Trunk Pacific and in an ideal position for mining operations.

The Lake Wabamun district is becoming an exceedingly popular place for coal mining. Already four or five mines have been sunk and at least one of them has been opened for the past four months. The seam of coal which lies about 100 feet below the surface of the ground is from six to twenty feet thick and is said to be of the best quality.

The mines are on the main line of the Grand Trunk Pacific and will be an easy source of fuel supply for that railroad. During the past four months which time the mine of W. C. Dunn has been producing coal the Grand Trunk has used its entire output.

Mining in the vicinity is made easy by the fact that in most cases it is not necessary to sink a shaft. The mine can be dug straight in from the side of a hill making it much easier to bring the coal to the surface.

A girl who inherited a snug little fortune of twelve thousand dollars has been rather cramped financially all her life, and she had always longed for the luxuries and frivolities of existence. Her uncle came to talk the matter over and advise her as to the investment of her little fortune. "Now, my dear," said he, in the tone of a genial but prudent counselor, "of course you have made some plans—have some idea of how this is to be invested? What yearly income do you expect from your twelve thousand dollars?" Then the young woman replied: "I expect, dear uncle, to invest my money so that I shall have a yearly income of twenty-four thousand dollars for six months." His nose very red. Hence, when he called at the parsonage the old minister remarked: "Jackson, Jackson, my man, I'm afraid you've become a hard drinker." "Don't judge me," answered Mrs. G. Steenbly, said Wentworth. "I hardly consume two glasses of beer a week." "Well, then," said the minister, in a soothing voice, "I guess your face, Jackson, is like my gas meter. It registers more than it consumes."

On the steps of an old Universalist church in Bath, Maine, there is a wooden figure of an angel. It is not a remarkably fine specimen of art, and has always been somewhat laughed at, especially because of its high-heeled shoes. The Bath Enterprise recalls the story that a former pastor of the North Congregational Church once accosted a devoted thrasher with the question: "Mr. Raymond, did you ever see an angel with high-heeled shoes on his feet?" "Why, no," answered Mr. Raymond, "I don't say that I ever did; but did you ever see one without them?"

BURNED LOCOMOTIVES

El Paso, Texas, Feb. 17.—A special to the Herald from Monterey, Mex., says the roundhouse and sixteen locomotives on the National line were burned there Saturday night. The superintendent of the line had received anonymous warnings that if certain contemplated changes in the official force were made, the roundhouse would be burned.

The last Greek had just shinned down the off hind leg of the Trojan horse.

"Ah me!" sighed King Priam, as he saw what was going on. "If I'd only had the sense to tell those cusses headed off by the Trojan horse, I'd have been king in a bad way."

"Oh, nonsense, my dear Maria—nonsense!" said Mrs. Binks, uneasily, the other night. "I am very sure that if the strongest financial institutions in the country, whatever put that nonsense into your head of head!"

"Well, it's very funny," said Mrs. Binks, still unconvinced. "They've just received a letter from the bank for twenty-five dollars marked no funds."

"I'm very sorry, sir," said the listener, addressing the noisy visitor. "I shall have to ask you to leave."

"Me, sir? Whaffor?" demanded the noisy visitor.

"You're a nuisance," replied the listener. "but that's my license, not yours."

Shiloh's Cure
This cure cures colds, coughs, croup, whooping cough, and all the ailments of the throat and lungs.

Hudson's Bay Company DAILY STORE NEWS

Another day of bustling activity. Many new lots of

Spring Merchandise

arriving daily, thus making the store more and more interesting each day.

FREE DEMONSTRATION OF ROYAL WORCESTER CORSETS

You'll never want to wear any other make when once you have tried these famous Royal Worcester Corsets. They allow perfect freedom without binding. There's a style for every kind of figure. BELIEVES THERE IS NO DANGER OF ANNEXATION

Birmingham Post Says There is no Moment, as Imperial Sentiment is Strong in Canada.

Birmingham, (G.A.P.) Feb. 16.—The Daily Post thinks the Canadian government is anxious about all things not to arouse suspicion of encouraging annexation policy. Had the reciprocity agreement implied annexation or even taken the form of a commercial treaty it is extremely doubtful if the Canadians could have been persuaded to assent for it is even now evident, there is nervousness in some quarters but the imperial sentiment is stronger in Canada even than at the heart of the empire and will take extremely powerful commercial interest to destroy it.

BURNED TO DEATH.

St. Cyrille De Lislet, Que., Feb. 17.—Two children were burned to death when their home was destroyed yesterday.

The father was at work and Mrs. Angello went to visit a neighbor, leaving the children aged two and four years respectively, alone in the house.

Was White Slave.

Montreal, Feb. 17.—This is the worst case I have ever had come before me," said Recorder Dupre, this morning, in delivering sentence Charles Verzie charged with being an habitual frequenter of disorderly houses.

Three young girls testified that Verzie was not only a frequenter of the house, but was the manager of it. They said he picked them up in different parts of the city and took them to 122 St. Dominique, where he practically held them captives and collected their earnings from them.

UNWISE TO LIVE BELOW GROUND.

The most wholesome room in the house for use as a sitting room is an upper room of southern exposure. People who make it a practice to sit in basement rooms finally become rheumatic; they take cold easily and their general vitality becomes lowered. It is unwise to live below the surface of the ground. All physicians are of that opinion.

C. Smith's, First Street, CALGARY—Alberta Hotel, STRATHCONA—Strathcona Investment Company. Readers of The Capital are requested to favor the management by reporting any irregularities in delivery.

Oblivious to the fact that it is not necessary to own a country in order to trade with it, the protectionist papers of Toronto, the News and Telegram, are squandering acres of space

to prove that the trade arrangement with United States is a direct move toward annexation. History shows no case where any two countries were ever brought together by trade relations, and the case of Canada and United States is one in which closer trade, rather than being a promoter of annexation, is likely to put a complete end to the possibility of such an eventual outcome.

It is quite understandable that if United States developed to the place where the raw material which Canada holds within her borders became a necessity to the republic to the south that this necessity would furnish the incentive to that republic to move toward annexation, by force or otherwise. But with the trade restrictions withdrawn this incentive is removed. It is not conceivable that there could be any other.

Down in the Crow's Nest pass country, which is the centre of more industrial struggles than any other part of Western Canada, they are lining up for another strike, and this time on a larger scale than ever.

INDUSTRIAL WAR IN COAL FIELDS VERY PROBABLE

The agreement signed two years ago between the mine owners and the men runs out in March. On Wednesday the operators, ostensibly to discuss mining matters in general, met in Calgary and appointed a committee to deal with the demands which it is expected will be made by the men. At the same time in Lethbridge at the convention of District 18, United Mine Workers of America, the delegates were listening to representatives from the International headquarters who assured them that the resources of the International treasury are at their command in case they need funds to enforce their demands.

At the time the last demands were made, two years ago, the United Mine Workers organization was engaged in a gigantic struggle all over the United States to enforce the eight-hour day, and there was no offer of support to the Canadian miners. At the same time the Jim Hill crowd, who had recently acquired the Fernie Mines, signed the agreement and with this large concern signed up the men went back to work without forcing on the smaller mines the same conditions as they got from the Fernie mines. On this basis they have been working ever since, the Fernie mines living up to the agreement and paying the scale demanded, while many of the smaller mines had no agreement at all. What the miners propose to do now is to place all mines on the same basis, and they intimate that if the smaller mines will not sign the agreement they will be shut down.

The fact that the new United States tariff, which will probably be in force by that time, will furnish an enormous new market for Crow's Nest coal may have a tendency to impel the operators to make an agreement, but failing this the indications are for a bitter struggle.

The fact that Alberta last year mined some three million tons of coal gives some idea of the extent of the industry and the far reaching effect which a tie-up would have on the southern country.

Regina has a council which, evidently, is composed of nincompoops. Following the discussion in the newspapers of a railway deal which

was scarcely even doubtful, the council adopted the padlock policy and undertook to hold all its meetings in secret. The board of trade and the library board, for reasons not very clear, followed the lead of the city council.

Here is a notice published in all three Regina papers which shows how the newspapers of that city are prepared to act under the circumstances:

At a meeting of the representatives of the news departments of The Leader, the Province and the Standard, it was agreed that hereafter these three papers will decline to publish items emanating from the Regina City Council, the Regina Board of Trade and the Regina Library Board. This decision is reached by the newspaper publishers because of the padlock policy introduced by these three public bodies since the first of the year.

The agreement will hold good until such time as the City Council, Board of Trade and Public Library Board, see fit to rescind their motions excluding representatives of the press and the newspapers and people of Regina are placed on an equal footing with newspapers and readers in every other city in America and Europe, Russia excluded.

Matter which these three public bodies desire inserted will have to be paid for at advertising space rates.

The Regina Leader stumbles onto a pamphlet issued by E. A. Partridge of the Grain Growers in which he argues that government ownership of the Hudson Bay Railway would not satisfy the farmers; that what they require is public ownership—and he invites the farmers to co-operate to build the road themselves. The Leader constructs this into an argument against government ownership, and the Bulletin tumbles into the same error. The difficulty is that Partridge is talking in a language which the Leader and the Bulletin do not understand. These farmers like Partridge have no right to spring that sort of political economy on such publications until the editors learn the difference between public ownership and government ownership.

"THIS DATE IN HISTORY"

February 18.

1705—George Peabody, eminent philanthropist, born in Danvers, Mass. Died in London, Nov. 4, 1869.
1816—Wilson Barrett, celebrated actor, born in Essex, England. Died in London, July 22, 1904.
1861—First Italian parliament met at Turin.

1867—Maximilian's forces entered Queretaro.
1871—Thomas Davidson, who drew the plans for the first torpedo boat of the U. S. navy, died in Philadelphia. Born in England, Aug. 28, 1828.

1899—Emile Loubet elected president of France.

1902—Charles Louis Tiffany, the great diamond merchant, died in New York. Born in Killbuck, Conn., Feb. 15, 1812.

1910—The Nicaraguan army was defeated by insurgents at San Vicente.

"THIS IS MY 53rd BIRTHDAY"

Bishop Macdonald.

Rt. Rev. Alexander Macdonald, bishop of the Roman Catholic diocese of Victoria, B.C., was born at Malton, Cape Breton, Feb. 18, 1858. His education was begun in his native Scotland, continued at St. Francis Xavier's College, Antigonish, and in the Propaganda, Rome, where he was ordained to the priesthood in 1885. On his return to America he was appointed to the faculty of St. Francis Xavier's College. In 1900 he was appointed vicar general of Antigonish, where he remained until his appointment as bishop of Victoria in 1908. As a theologist, as a linguist, and as a writer Bishop Macdonald is said to have few or no superiors in the Dominion of Canada. He has written much for the Roman Catholic press on both sides of the Atlantic.

BIG PROGRAMME IN PUBLIC WORKS

Strathcona Will Spend Large Amount on Construction This Year—Labor Famine Feared.

Strathcona, Feb. 18.—One of the busiest seasons on local record is ahead of the city's public works department if by-law provisions and petitions for improvements are carried out in full this summer. With the days gradually lengthening into spring the work that is to be accomplished here for frost again binds times up looms larger by rapid degrees, and as far as possible preliminary details are being attended to both by the council committee and the officials. The biggest contract ahead of the department this spring is the construction of the new and tank sewer and laterals, which will call for an outlay of \$75,000 during the coming season. This is an undertaking of sufficient magnitude to keep a large force of men busy all summer. Without a considerable departure from the regular order of business it is exceedingly doubtful that this contract could have been carried out in its entirety this year, this departure being the submission of the debenture by-law last fall in order that every arrangement could be completed during the winter months for a start on the work immediately the ground thaws, which has been done since the by-law was ratified.

Labor Scarcity Possible.
Another possible difficulty ahead of the contractors in the sewer and water lines construction will be a scarcity of labor. With the very busy building season which is due to meet Strathcona with the approach of favorable weather claiming a good share of the workmen it will be readily seen that the task of keeping a big force of shovel-men may be a serious one. This inconvenience was felt to a mild extent last year on the sewer and water extensions.

What will be done in the way of paying this year is still problematical. Petitions are being called for this improvement, and it is understood that several days yet. It is understood that the majority of the council are in favor of extending the length of the bill on the Whyte avenue at least one block west and that on First street east past the C.P.R. freight sheds. Other extensions are talked but will not be broached in council until the petitions are in.

Gratuitous Walks Popular.
The date having expired which marked the time limit for petitions for council sidewalks, the extent of this kind of work may be estimated with a degree of certainty. All previous records of requests for this class of improvement have been broken by the citizens this year. If all these demands are granted by council the work and next autumn will find a number of east and west streets with sidewalks improved since in the majority of petitions there is a request for boulevard. One objectionable feature of this work is in the connection that is certain to exist in the cement walks system, some blocks asked for a considerable distance removed from present gratuitous extensions. It is noticeable however that this year the streets thus marked by disconnection will be balanced with new walks.

Petitions for plank walks will be received until the 15th of next month so their appearance is still to be made before the council holds. The next few meetings will undoubtedly find a veritable riot of these requests on hand. The 25 miles of this class of walks will be greatly increased before snow flies again.

Checking System Coming.
Mr. A. E. Potter of the City Transfer Company has informed the Strathcona council that before many months a new system of checking vehicles will probably be in force in the two cities. This system is one now being perfected on a worked in American cities by the railways and, though simple in operation, should be strikingly successful and greatly appreciated by the travelling public. The system will enable persons to check baggage from

their homes in any city on the continent to any house in any other city with the assurance that the luggage will reach the destination without loss of time and with no further inconvenience. Mr. Potter expects to see this system established by the C.P.R. in the near future.

Strathcona Locals.
A well attended executive meeting was held last evening by the directors of the new Y.M.C.A. at which several questions of importance were dealt with.

Services in the Methodist church tomorrow will mark the closing of the being the annual missionary anniversary. Rev. John A. Doyle has been secured to preach both morning and evening services. Mr. Doyle is said to be a very forceful speaker.

Only routine business occupied the attention of the school board in its regular monthly meeting in the College last night. "Very little business of prime importance has been taken up since the chairman, Mr. Ritchie left for California some weeks ago. Mr. C. D. Flint, one of the promising young students at the university, was taken to the hospital this week suffering from pneumonia and rheumatism of the heart and is said to be in a critical condition. He passed the recent examination in his studies and his illness is deeply regretted both by the faculty and student body. Mrs. Flint, the mother, arrived here Tuesday from Washington, from which state they recently came to Alberta.

To curl on a skip. Governor-General of Canada is a privilege not accorded to every participant of the roaring game but this is an honor which has been taken up since the chairman, Mr. Ritchie left for California some weeks ago. Mr. C. D. Flint, one of the promising young students at the university, was taken to the hospital this week suffering from pneumonia and rheumatism of the heart and is said to be in a critical condition. He passed the recent examination in his studies and his illness is deeply regretted both by the faculty and student body. Mrs. Flint, the mother, arrived here Tuesday from Washington, from which state they recently came to Alberta.

Fort Saskatchewan junior hockeyists plucked their second victory from the local lairs at the rink last night but barely managed to correct first with the margin of one goal. The play was not particularly fast considering the size of the players but the visitors were able to force when a little pressure meant tally. Individually the Strathcona boys made the better showing but they were minus the team work. The score at half time was 2-1 in favor of the Fort and the last onslaught each side counted one. Jardine of Fort was referred to especially poor. The team were:

DECORATIONS FOR THE CORONATION

Will Be Most Gorgeous Ever Witnessed—Will Cost Crown at Least \$1,000,000.

London, Feb. 17.—At the approaching coronation no less than \$1,000,000 will be spent on the day and night decorations of the streets of the metropolis by public bodies and business firms, not to mention private enterprise. Judging by the enthusiasm with which the decorations scheme have already been taken up, the far from lovely city of London will be almost transformed.

While the details of the plan have not been definitely settled certain leading features of the general scheme of decoration have virtually been adopted. It is probable that the city will be divided into sections, with magnificent arches at the entrance to each division. The streets of the West End, through which the coronation processions will pass, will be lined with rows of vineshades connected with floral garlands and topped by flags representing all portions of the empire.

Gratifying progress is reported in the preparation of the musical ritual of the coronation service. As already announced the musical programme will follow closely that at the coronation of King Edward VII, with a few notable additions. There will be a larger choir and also a larger band than at the coronation of the late king. The singers will number almost five hundred and the instrumentalists probably one hundred.

The nucleus of the choir will naturally be the Westminster Abbey singers, who will be re-inforced by the choirs of St. Paul's Cathedral, the Chapel Royal, St. George's Chapel at Windsor, and drafts from the choirs of Rochester Cathedral and other churches in the provinces. The orchestra, in which the trumpeters will have a conspicuous part, will be made up of musicians from the King's private band and the orchestra of the Royal Choral Society and the Kneller Hall School of Military Music.

The chief features of the musical ritual will be the anthems specially composed for the occasion by Sir Frederick Bridge, Sir Walter Parratt and Sir George Martin, the three greatest organists in England. Sir Frederick Bridge probably will be selected to compose the anthem which will signalize the entrance of the royal party into Westminster Abbey. This recalls an

FAVORITES LOST.

Waterloo Cup Goes to a Hitherto Unknown Gamine.

Liverpool, Eng. Feb. 17.—The Waterloo Cup, the Annual Deer Derby, won at Aintree today by Sir R. W. B. Jardine's puppy, a rank outsider, who defeated the favorite, Silk and Scarlet. When heats were started Wednesday both of 1,000 to 20 were laid against Jabberwock. In addition to the cup given by the Earl of Sefton and valued at five hundred dollars, the winner takes two thousand five hundred dollars cash.

ALBERTA LAGOONS.

The members of "A" Squadron 19th Alberta Dragoons will assemble in the Separate school hall, Third street, at 8:00 p.m. on Monday evening, the 20th inst., for signalling practice on a lecture by the C. O.
BORN.
MERCER.—On Thursday, February 16, to Mr. and Mrs. J. B. Mercer, of 636 Twelfth street, a daughter.
The commissioners have written the manufacturers of the heading device recently installed on one of the cars on the Strathcona route for experimental purposes to the effect that the car has not as yet been subjected to the test of low temperatures. Before deciding to place an order for the installation of the heading apparatus, the commissioners declare that the device must be subjected to a further test.

NEWS ITEMS FROM GREATER NEW YORK

Boys Imitate Highway Robbers—Tennants Must Be Made More Modern—Profits From the Subway.
New York, February 18.—(Associated Press.)
Memorial Episcopal church, a neat, somewhat old-fashioned brick structure in West Forty-third street, between Seventh and Eighth avenues, was the scene of a rather unusual celebration the other day, the forty-first anniversary of the Rev. Floyd Sloan's appointment as rector of that church. When Rev. Sloan took charge of the church forty-one years ago, the surroundings were of a suburban character. There were large unoccupied spaces, small wooden cottages and a series of dumping grounds in the direction toward the Hudson. At that time the congregation consisted mainly of farmers and suburbanites. Things have changed greatly since then. Now the church is almost hidden by the large buildings on all sides of it and its parish house, which stands about fifty feet from the building line in the rear of the lot, is quite lost to the hurried view. Theatres and restaurants are all around the church and on the opposite side of the street a large hall is now building. The congregation has also undergone a wonderful change. It consists now mostly of chorus girls and other theatrical folk and the Sunday school, although it is still continued, has decreased in membership to a mere handful of children, some of whom are the sons or daughters of members of the congregation, who now live at a considerable distance from the old church.
During the recent Chapman-Alvander evangelistic campaign in Brooklyn noon revivals were held at the Opera House. One day the early arrivals at the theatre were surprised to find the stage occupied by a ballet dancer rehearsing an oriental dance. During the morning hours the stage was always used for rehearsals, but as a rule care was taken to stop the rehearsals some time before the time set for the revival. On this occasion, however, the rehearsal was continued a full hour longer. It is an interesting fact that on the following day, by a strange coincidence a large number of the revivalists arrived at the Opera House more than half an hour ahead of the time set for the meeting.
When the first subway line in New York was opened to traffic in 1901, there were many persons who, realizing the enormous cost of the tunnels, seriously doubted that the traffic would ever pay a fair return upon the invested capital. The figures published after the subway had been in operation for one year dispelled all misgivings as to the profitability of the system; but even that favorable showing was not believed to indicate that there would be any appreciable increase for many years. Yet, after three years of operation the ticket sales on

one single section, between Ninety-sixth street and South Ferry, were greater than on the entire system during the first year of operation. During the year 1910 the ticket sales for the one section aggregated \$270,321,400, against 116,209,313 in 1905. This shows that the traffic has more than doubled during the last five years. The greatest increase was recorded on the Broadway branch above Ninety-sixth street, which increased from 9,112,575 in 1905 to 32,752,668 in 1910.
Some of the large clothing manufacturers in this city, who depend for their working force in the tailoring shops largely upon girls from the Polish and Russian-Jewish districts of a far lower East side, were confronted with an unexpected predicament recently, after they had modernized their establishments by installing electric light, heat and motive power. Formerly the irons for pressing the finished garments were heated on stoves, but a great deal of time was lost by that antiquated method and the manufacturers introduced irons heated by electricity. For some unaccountable reason the girls were afraid of the electric irons and rather sacrificed their positions than to handle the mysterious instruments that would become hot without having been placed on a stove. It required considerable coaxing and persuasion to convince the girls that the electric irons are quite harmless, if handled properly, and do their work much better and quicker than the old-fashioned, stove-heated flatirons.
Once more a case has come to public notice, in which two half-grown boys became amateur highway robbers after they had witnessed a moving picture show, depicting the methods of modern highwaymen. The two youthful would-be robbers attached two dollars to their belts, and were secreted away before they had time to rob them of their belongings. One of the little victims, who had been roughly handled by his "highwaymen," became so frightened, that the doctors feared he would not recover from the shock. And still the moving picture houses are permitted to display crime-depicting films, which are bound to cause trouble by suggestion of imitation of the depicted scenes to impressionable boys in the audience.
A burglar fond of crullers, music and good clothes, broke into the apartment of a wealthy resident of Mt. Vernon the other night, feasted on half a dozen crullers, which he found in the pantry and then left the premises, taking a silver cornet and a new suit of clothes with him as souvenirs. The burglar evidently had a cast iron constitution, as he could not be found in any of the hospitals, notwithstanding the fact that he had eaten half a dozen crullers.
Some malicious idiot is evidently having a lot of fun at the expense of Dr. John W. Hill, pastor of the Metropolitan Temple, Seventh Ave. and Fourteenth street. The "joker" advertised in the daily papers that 1000 men were wanted at 131 West 118 street, Dr. Hill's home address. The result may be imagined. A few days

later the same joker advertised that someone in Dr. Hill's house wanted to engage a theatrical company and for many days Dr. Hill was overrun by actors and actresses eager for an engagement.

FOR ECZEMA

A Treatment That is Guaranteed to Give Relief.
Eczema is parasitic in nature. It is said to be a contagious disease. Until the parasite or germ hidden in the skin is completely destroyed and removed, eczema cannot be cured. Fully one-third of all skin disease is in the form of eczema. It affects persons of all ages and classes. It is very prevalent among people between the ages of 20 and 40.
We unhesitatingly guarantee to return every cent paid us for REXALL Eczema Ointment in every case where it fails to give entire satisfaction. It possesses remarkable cleansing, antipruritic, healing and curative power. Its great value is very pronounced in the treatment of eczema, whether of the dry, scaly sort or of the weeping type, where there is a constant flow of an ill-smelling excretion, or of the other intermediary forms, such as ring worm, acne, pimples, blotches and discolorations.
Recall Eczema Ointment is very useful in treating ulcers, sores, wounds, insect bites, nettle rash and hives. It is particularly recommended for the treatment of children who are tormented with itching, burning, and disfiguring skin disease. We urge you to try a box at our risk.
Your money waits you if you are not satisfied with the treatment. Two sizes, 50c. and \$1.00. Remember you can only obtain REXALL Eczema Ointment in this town at our store—The Rexall Store, A. Archibald.

Ex-Mayor Lee and Mrs. Lee were among the guests at the annual reunion of civic employees last evening. John H. Line, provincial librarian, left the city last evening for a few days, to visit his father in North Battleford.
"Is that you, dear?" asked a young husband over the telephone. "I just called up to say that I'm afraid I won't be able to get home to dinner to-night, as I am detained at the office."
"You poor dear," answered the wife sympathetically. "I don't wonder. I don't see how you manage to get anything done at all with that orchestra playing in your office. Good-night!"
One of his friends once asked Mr. Darwin's barber about his master's health, and how he had been lately.
"Oh," he said, "my poor master has been very badly. I often wish he had something to do. He moans about in the garden, and I have seen him stand doing nothing before a flower for ten minutes at a time. If he only had something to do I really believe he would be better."

Silver Tea Sets, Jackson Bros.

President Foeel of the Philadelphia Nationals, is trying to arrange a series of games with the Washington team, to be played at either Richmond, Va., or Birmingham, Ala.

A certain Dr. C. was once reading a very strenuous paper on total abstinence before a clerical club (so the story goes), when the entertainer went out to tell his wife how many she was to provide for at supper.
"What are they doing?" she asked, and was told the subject of the essay.
"What shall I do?" she cried. "Here I have branded penches and it is too late to make a change."
"Make no change," said her husband. "It will be all right."
The essayist had the post of honor at the right of the lady of the house, and she presented him with a dish of the peaches. After a while she said to him:
"Dr. C.—won't you allow me to give you some more of these peaches?"
"Thank you!" he replied. "They are excellent!"
A little later she said:
"Dr. C.—may I not give you another peach?"
"No, thank you," he said apologetically, "but I will take a little more of the gravy!"

Our watch work gives satisfaction. W. A. Ferguson.

AMERICAN LEAGUE CLUBS LINED UP

Personnel of the Teams in President Ban Johnson's Strong Organization—But Two Hold Outs for the Season of 1911 and These Are Expected to Come in Line Before the Umpire Calls "Play Ball"

Allowing for the chance that pending deals for players may be consummated the rosters of the teams in the Ban Johnson organization are complete for the coming season. It is possible that the management of the New York club may trade Jimmie Austin, with the pepper, for Frank Laporte, with the wallop, for Roy Hartzell, of the St. Louis Browns.

As in the National league holdouts are few in the American. Boston has two—Bill Carrigan and Jake Stahl. The catcher has turned down President Taylor's offer of \$3,500 salary and a bonus of \$500, and Taylor announces he will depend on Jack Kleinow to do the bulk of the catching for his team. Stahl wants to go into business, but may be persuaded to play ball next season.

Following are the rosters of the American League teams for the coming season:

NEW YORK

MANAGER HAL CHASE.

Pitchers—Ford, Warhop, Vaughn, Quinn, Fisher, Caldwell, Ables, Revell, McClure, McGraw, Burbank. Catchers—Sweeney, Blair, Williams, Walsh, Russell. Infielders—Chase, Gardner, Knight, Hoach, Laporte, Austin, Elliott, Johnson, Litch. Outfielders—Hemphill, Cree, Daniels, Wolter, Kauf.

ATHLETICS

MANAGER, CONNIE MACK

Pitchers—Coombs, Bender, Plank, Dygert, Morgan, Krause, Russell, Werner, Friese, Bonner, Griffen Callomere. Catchers—Thomas, Livingston, Douche, Lapp, O'Neill. Infielders—Davis, Collins, Barry, Baker, Melvin, Derrick, Houser, Hark, Heizer. Outfielders—Hartzell, Oldring, Murphy, Lord, Strunk, Hessler.

BOSTON

MANAGER, FILANK DONOVAN

Pitchers—Collins, Hall, Wood, Hunt, Karger, Cicotte, Frank Smith, Charles

Smith, Arrellans, Pape, Karger, McKinnon, Bedient.

Catchers—Carrigan (doubtful) Kleinow, Madden.

Infielders—Stahl (doubtful), Gardner, Wagner, Putrell, Enzie, Bradley, Killaly, Yerkes.

Outfielders—Speaker, Lewis, Thoney, Hooper, Elston, Higgert.

WASHINGTON

MANAGER, JAMES McLEER

Pitchers—Johnson, Walker, Gray, Mose, Oley, Hughes, Reising, Groom, Bossey, Sherry.

Catchers—Sireel, Alsmith, Henry.

Infielders—McBride, Conroy, Cunningham, Somerlott, Etherfield, Buntine, Unglaub, Killifer, Henry, Schaefer, Gill.

Outfielders—Millan, Lelivolt, Ralsion, Gowan, Corbin, Gessler, Swain, Miller, Brownay.

DETROIT

MANAGER, HUGH JENNINGS

Pitchers—Donovan, Mullin, Summers, Works, Stroud, Willett, Cayle, Peasey, Covington, Mitchell, Smith, Lively Lasslie.

(Continued on Page Seven.)

RACES AND A FAMOUS RACER

O. B. BUSH.

RACE MEET TO BE HELD NEXT WEEK WILL BE BIG AFFAIR.

That skating race meet which is going to be held in the Thistle rink on Saturday, Feb. 25, promises to be a pretty big affair. The entry list is certainly going to be a big one and although the rink is a little too small for really fast skating, the competition will be just as close as world's records were being made. Even at that the times will be the fastest made around these hands in large rinks. With skaters like O. K. Bush racing there it is likely to be a few things happening.

Then there is the young Edmonton phenom, Harper. He is only a youngster but he can go some. He has not done any racing since he completed in the intermediate meets in Ontario. At that time he was wrestling everything that came in sight, the same men this race won winning senior championships in Ontario.

The covered rink is sixteen laps to the mile and the outside one twelve. If the weather is good the races will be held in the large rink, while if it is snowing or cold they will be held in the covered one. Already there are entry entries for the race.

O. B. Bush has been known for years now as one of the fastest speed skaters in the world and holds four championships of America which he won from Edmund Lamy in 1909 at Pittsburgh, Saranac Lake and at Montreal. They are:

The mile indoor championship of America at Pittsburgh. Time 2:52.

The mile indoor championship of America, Pittsburgh. Time 1:17 3-5.

220-yard championship of America, Saranac Lake. Time 19 1-5.

220-yards Canadian championship, won at Montreal.

CALGARY A.C. DEFEATS EDMONTON-TABER UNION

Edmonton Played But Three of Her Regular Lineup, Filling With Defeated Southerners and Strathcona Survivor and Was Defeated by Eight to Two

Who scored:
1. Calgary—Pritchard, 12 minutes.
2. Deacons—L. T. Cook, 12 minutes.
3. Calgary—Pritchard, 4 minutes.

Half Time—

4. Calgary—Pritchard, 4 minutes.

5. Calgary—Pritchard, 4 minutes.

6. Calgary—Pritchard, 2 minutes.

7. Calgary—MacKenzie, 3 minutes.

8. Calgary—Pritchard, 4 minutes.

9. Deacons—Dea, 6 minutes.

10. Calgary—MacKenzie, 2 minutes.

The first half was slow but the teams worked hard. The Gals showed up their old tendency to make off sides when ever they started a combination play and at least two of their goals were scored on such stunts. In the

Edmonton team could learn to play outside hockey they would be a good team.

Hard checking by the Edmonton defense pulled them up every time. Edmonton of course had no combination with four new men on their line-up but even at that they broke through the

Calgary defense often than did the cowpunchers find a passage through the Deacons' rank.

The second half was much faster but not nearly such good hockey. Time after time the Gals got away with off-side combination rushing it through on forward passes of the worst kind.

DORMATTS WIN FROM VARSITY

Game Was Most Fiercely Contested Match Ever Played on Y.M.C.A. Floor

The Varsity quintette went down to defeat before the famous Dormatts in one of the most fiercely contested basketball matches ever played on the Y.M.C.A. floor.

At half time the educated wonders lead by six points but the second period became too strenuous for the Dormatts and they lost the championship now is between the Dormatts and Dingie's team.

For the Dormatts Clark was the heavy seaver, finding the basket four times. Hammond, Pife and Folsom each made two baskets for the Varsity. The teams lined up as follows:

Varsity—Hammond, Pife, Folsom, Blaney, Parney.

Dormatts—Wait, Dunham, Clarke, Britton, Tompkins.

SPORTING CALENDAR.

Annual indoor meet of New York A. C. Madison Square Garden, New York City.

SOMMERVILLES SNATCH MERCANTILE TROPHY

FINAL MATCH IN COMMERCIAL LEAGUE WAS BRILLIANT EXHIBITION OF HOW HOCKEY OUGHT TO BE PLAYED—SOMMERVILLES WIN FROM C.N.R.

It was a close game and a fast one that Sommervilles won from the C. N. R. last night and the winning of it gave them the championship of the Commercial league for this year. The score was three to two. Right from the outset both teams went in or the goals. They didn't get very many and they had to work hard for the few they did get.

The score about indicates the strength of the teams. Although the railroaders were somewhat harder checkers than the merchants they did not play as good combination game as the Sommervilles nor were they as fast at their skates. The rubber was in their own end of the ice most of the time and but for a tendency on the part of the Sommervilles to take long shots the score might have been much larger.

The attendance was easily the largest that has been seen at a Commercial league game since the organization of the league, there being several hundred

fans and backers to root for their favorites. The sides and ends of the rink were crowded and even the roof held a number of eager spectators.

The game was decidedly the best yet played in the Commercial league and was a good deal better than a majority of the alleged senior matches in the provincial league earlier in the

Caught a Heavy Cold
It Lett Him With a Hacking Cough

Mr. J. H. Richards, 1822 Second Avenue, East, Vancouver, B.C., writes: "Allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough, and every time I would get a little more cold this hacking cough would become a lung-spiriting one. I kept on getting worse and I kept on spending money buying different cough remedies until a friend asked me if I had ever tried Dr. Wood's Norway Pine Syrup. I told him I was willing to try anything I thought would cure, and one day I bought two bottles. Before half the first one was used my cough began to get much easier, and by the time I had used the entire bottle my cold was gone. I am keeping the other half bottle in case it should come again but I think I have a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough or throat irritation of any kind."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pines trees are on each bottle; price 25 cents. Manufactured by The T. Millard Co., Limited, Toronto, Ont.

REAL ESTATE BULLETIN

Enquiry today is very general, no particular locality having much preference.

Residences are in strong demand and we have some good offerings in this line which we shall be pleased to show if you will call upon us or phone us.

Do not delay in securing a residence as there are very many enquiries and the first are naturally best served.

ALBERTA PARK

Enquiry for blocks in this suburb is becoming stronger daily and although the snow lies somewhat deep, it is still possible to judge fairly well of the nature of the surface so our clients are unwilling to delay making their selections until the snow disappears. We are entirely at their service at any hour it may suit them to take the trip.

NEWS OF THE CITY

Arrangements are to be made for the installation of a private telephone connecting the street railway, electric light and power and power house department.

The Welsh Bible class will meet Sunday afternoon at a quarter to three at Westminster church, corner Queens and Sutherland. All interested are requested to be present.

T. M. Millar, formerly with The Investors Guarantee Corporation, has accepted a position as inspector for Northern Alberta for the Manufacturers Life Insurance company.

The Daughters of Mary, the Girls' branch of the Hospital Aid, will meet in All Saints' school room, Third street, on Monday afternoon, Feb. 20th at three o'clock. All girls are invited to attend.

A Sunday evening sacred concert will be given next Sunday by the "Citizens" band in the Lyceum theatre. The soloists will be Mortimer Johnston, violin; John G. Collins, cornet; and Albert Heitman, trombone. The concert will start at a quarter to eight sharp.

The committee in charge of the Sunday afternoon meetings at the Orpheum theatre have been able to retain the Passion Play film for use at the service at 4 o'clock on Sunday. These pictures have been seen by a large number of people during the week and have been acknowledged by all those who have seen them as some of the best ever seen in the city.

At St. Michael's church the pastor will preach the concluding sermon of the series on the early narratives of the Old Testament, 11 a.m.—"Common Sins,"—A Study of Unkindness and Envy. Joseph, the victim; Genesis 37:2-28. Text: Acts 5:1-9. 7:20 p.m.—"Character Counts,"—A Study of Strength and Security. Joseph, the victim; Genesis 39:1-6. Text: 1 Peter 5:2. Song service, 7:15. 3 p.m.—Men's Association and Sabbath School.

Y. W. C. A. NOTES.

Following is the week's program at the Y. W. C. A.
Sunday February 19, 4 p.m., Young Women's Bible Class.
Tuesday, February 21, 8:15 p.m., Book Club.
Thursday, February 23, 8:15 p.m., Girls' Improvement Club (music lesson conducted by Mrs. Manson; military class conducted by Miss Walker).
Friday, February 24, 8:15 p.m., Lecture by Mrs. Broadus; subject, "Cavayne, a Typical Knight of Arthur's Court."

HONOR DR. McQUEEN.

At the last meeting of the Presbyterian held in the First Presbyterian Church, Edmonton, it was unanimously agreed that:

The Presbytery desire to place on record its very high appreciation of the very valuable services rendered by the Rev. Dr. McQueen, both as a citizen and, especially, as pastor of the First Presbyterian Church for nearly a quarter of a century; and it hereby expresses very great pleasure in learning of the action of the First Church in manifesting in a tangible manner its appreciation and loyalty to the Rev. Dr. McQueen in the presentation recently made to him by said congregation.

JESSIE MACLACHLAN COMING

In the closing days of Miss MacLachlan's former concert tours in Canada and the United States, how often has the old familiar song "Will ye no' come back again," found an echo in the hearts of her audience; and how fervently have thousands of her countrymen and country women on this side of the Atlantic expressed the hope that this wonderful vocalist would return to them again, to stir their souls and ravish their ears, as no other artist of the present day can do. Previous to her last tour rumors had been widely circulated in this country that the prima donna was so ill that she was incapacitated from singing. She felt that to simply deny these reports was not enough; and so, although it was not her intention to come out to Canada last season, she hurriedly decided to do so. She came, she sang, she conquered! Never on any of her previous tours did she sing so well; and no better answer to the mischievous reports about her health could be given than this: That besides filling her numerous engagements in Eastern Canada and the United States, Miss MacLachlan covered a tour in the West, extending from Winnipeg to the Pacific coast, and basing from the beginning of February until the 20th of June, singing almost every night, Saturday night not excepted. Who among living vocalists can boast of such a record?

INCORPORATION FEES

WILL TOTAL \$3550
Over One Hundred Have Received Papers From Provincial Government During Past Week.

Something like a record in the incorporation of companies was created during the past ten days at the office of the provincial registrar of companies.

During the ten days a total of 110 companies were incorporated, with a total capitalization approaching \$10,000,000, and with incorporation fees paid in totalling about \$3,500.

One company per day has been the usual record during the past few weeks at the office of the registrar, which is some indication of the activity "suds up" outside and in the sun and the past week was a record breaker, due to the fact that over 100 companies with a capitalization of \$10,000 each, were organized within ten days.

There was also incorporated the Prairie Fuel Gas company, with a capitalization of \$8,000,000, and several other companies of a smaller scale.

JUDGING OF PLANS TO BE STARTED NEXT WEEK

Judging of the plans submitted in the stock pavilion competition for the exhibition association, will be proceeded with next week.

At a meeting of the directors of the association held last evening, a committee of five directors, whose names are not given at present, were appointed to act as judges. They are expected to make their award early next week.

The prize lists for the August exhibition are now ready for printing, and their publication will be immediately proceeded with.

A resolution favoring the holding of the international dry farming congress at Lethbridge next year, was ordered to be prepared by the executive, and will be forwarded to the convention at Colorado Springs, which is to be held shortly.

SUNDAY EVENING CONCERT BY CITIZENS' BAND

The soloists for the sacred concert to be given Sunday evening in the Lyceum theatre will be Mr. Mortimer Johnston, violin, Wm. John G. Collins, cornet, and Mr. Albert Heitman, trombone.

The concert will start at 8:45 sharp.

Programme
Our Kink—March—Paris Chabbers.
Light Cavalry—Overture—Suppe.
9th Concerto—Violin solo—Berlioz.
Mr. Mortimer Johnston.

Mr. John G. Collins and Mr. Albert Heitman.

In a Sylvan Vale—Mazurka de Concert—Theo. Laubert.

A "Cavatina" Ball II—Hungarian Dance—Brahm-Jochan—Mr. Mortimer Johnston.

Elcien Chimes—Reverie (by special request)—Mills.

The Shining Stars—March—Souza.

God Save the King.

Accompagnist, Mr. W. Harry Watts.

Conductor, Frederick D. Shanks.

Seen It?

HAVE you seen the place where really good clothing is on sale at the lowest prices in town. If you have not and you are wanting anything to wear from a cap or hat to sox or boots you should take the nearest and quickest route to the Crystal Palace Clothing Store.

Special and strenuous reasons compel the entire stock to be thrown on the market at exceedingly low prices. At least \$10,000.00 is required by next Saturday to pay for heavy shipments of goods just arriving and we require also the room in the store to place them. This is the plain, simple, homely truth.

When dire necessity compels one, no sacrifice is too great and you will find writ large throughout the store the word

Opportunity

EVERY SUIT, Every Coat and all the Goods throughout the Store have their original price marked on the original tickets and the sale price on special tabs, so that you can see for yourself exactly what the reduction is in each case.

This is no time for playing at a sale on our part. We simply must turn the goods over immediately.

Come in and look over our very fine stock and you will quickly be satisfied that you have never before been able to buy so much for so little.
